

Vajrala Geethika

Data Analyst

✉ vajralageethika8@gmail.com ☎ 9618176143 📍 Hyderabad, Telangana 🔗 GitHub

Summary

- Detail-oriented data professional with a strong foundation in data analysis, statistical methods, and visualization techniques.
- Skilled in utilizing SQL and Python to extract, clean, and analyze complex datasets to support data-driven decision-making.
- Proven ability to build interactive dashboards and reports that translate raw findings into actionable business insights.
- Collaborative team member committed to continuous learning and implementing data quality improvements to ensure high integrity in all deliverables.
- Adept at leveraging tools like Power BI and Excel to identify process improvement opportunities and streamline reporting workflows.

Technical Skills

Programming:	Python, SQL
Data Analysis:	Data Cleaning, Preprocessing, SQL, Excel, Statistical Analysis
Visualization:	Power BI, Tableau, Matplotlib, Seaborn
Machine Learning:	Scikit-learn, Logistic Regression, Decision Trees
Database:	MySQL, PostgreSQL
Tools:	Jupyter Notebook, VS Code, Git

Projects

CUSTOMER PURCHASE BEHAVIOR ANALYSIS & DASHBOARDING

- Collected and analyzed data from diverse sources to uncover purchasing trends and improve dataset accuracy.
- Performed rigorous data quality checks and preprocessing on over 3,000 customer records to ensure high data integrity.
- Developed interactive visualizations and reports to communicate key findings to stakeholders.
- Improved reporting efficiency by 15% through the automation of routine data processing workflows using Python.
- Collaborated with cross-functional teams to identify actionable business insights and support data-driven solutions.
- Supported the identification of process improvement opportunities by conducting comprehensive exploratory data analysis.

LOAN DEFAULT RISK PREDICTION

- Developed data processing pipelines to clean and normalize 50,000+ financial records for accurate analysis.
- Implemented data cleaning and preprocessing techniques to prepare variables for risk assessment modeling.
- Contributed to data quality assurance processes by testing and debugging code during the development lifecycle.
- Increased prediction accuracy by 15% through the application of advanced feature engineering techniques.
- Participated in team discussions to evaluate analytical insights and refine data interpretation methodologies.
- Maintained detailed documentation of analytical findings and data methodologies to support knowledge sharing.

EDUCATION

SASTRA Deemed University | Bachelor of Technology in Electronics and Communication Engineering
Thanjavur, Tamil Nadu

CGPA: 7.5/10

CERTIFICATIONS

Microsoft Certified : Python for Data Science

Scaler Certified: SQL & Database Design with MySQL
